Amazon workboats

– the tough Orkney breed

AMAZON Series
Complete heavy duty workboat features

24 ft. (7.3 m), 29 ft. (8.8 m) and 36 ft. (11.0 m) versions

Most makes of engine available

Amazon workboats are designed and built of highest quality materials and to a high standard of workmanship, making the range one of the most rugged available and requiring the minimum of maintenance expenditure.

Already proven in fishing boat form, these hulls have resisted groundings, collisions, and continual rough treatment. Simplicity of design and layout is a major feature of the range, making them suitable for most marine applications. Additional features and special variants are available for passenger, pilotage, towing, cargo and mooring launch operations.

The hull designs have been developed from the traditional fishing craft operating in one of the world's most treacherous sea lanes, the Pentland Firth, an area renowned for its treacherous currents, rocky shores and sudden winter storms.

Amazon — the experience-proven workboats

Front cover picture: 36 ft. Pilot/towing/harbour launch *Celurca* at work at Montrose.

Standard boats available

- **Amazon '24'** — 24 ft. (7.3 m) heavy duty workboat
- **Amazon '29'** — 29 ft. (8.8 m) heavy duty workboat
- **Amazon '36'** — 36 ft. (11.0 m) heavy duty workboat

For pilot/harbour launch duties; harbour tug; personnel boat; offshore industry support boat, etc.

For all types of commercial inshore fishing

- ☐ 24 ft. (7.3 m) fishing boat
- ☐ 29 ft. (8.8 m) fishing boat
- ☐ 36 ft.(11.0 m) fishing boat

All-round capability

DESIGN

From design proposals based on our existing models to initial project appraisals we offer a comprehensive design service. We will also work with your own consultant on new projects.

G.R.P. MOULDING

We offer a fully Lloyd's approved moulding service in a temperature controlled 18,000 sq. ft. factory, where all work is undertaken under the supervision of Lloyd's Register of Shipping. In addition to our workboat and fishing boat range we also offer a series of modular and one-piece water storage tanks.

FITTING OUT

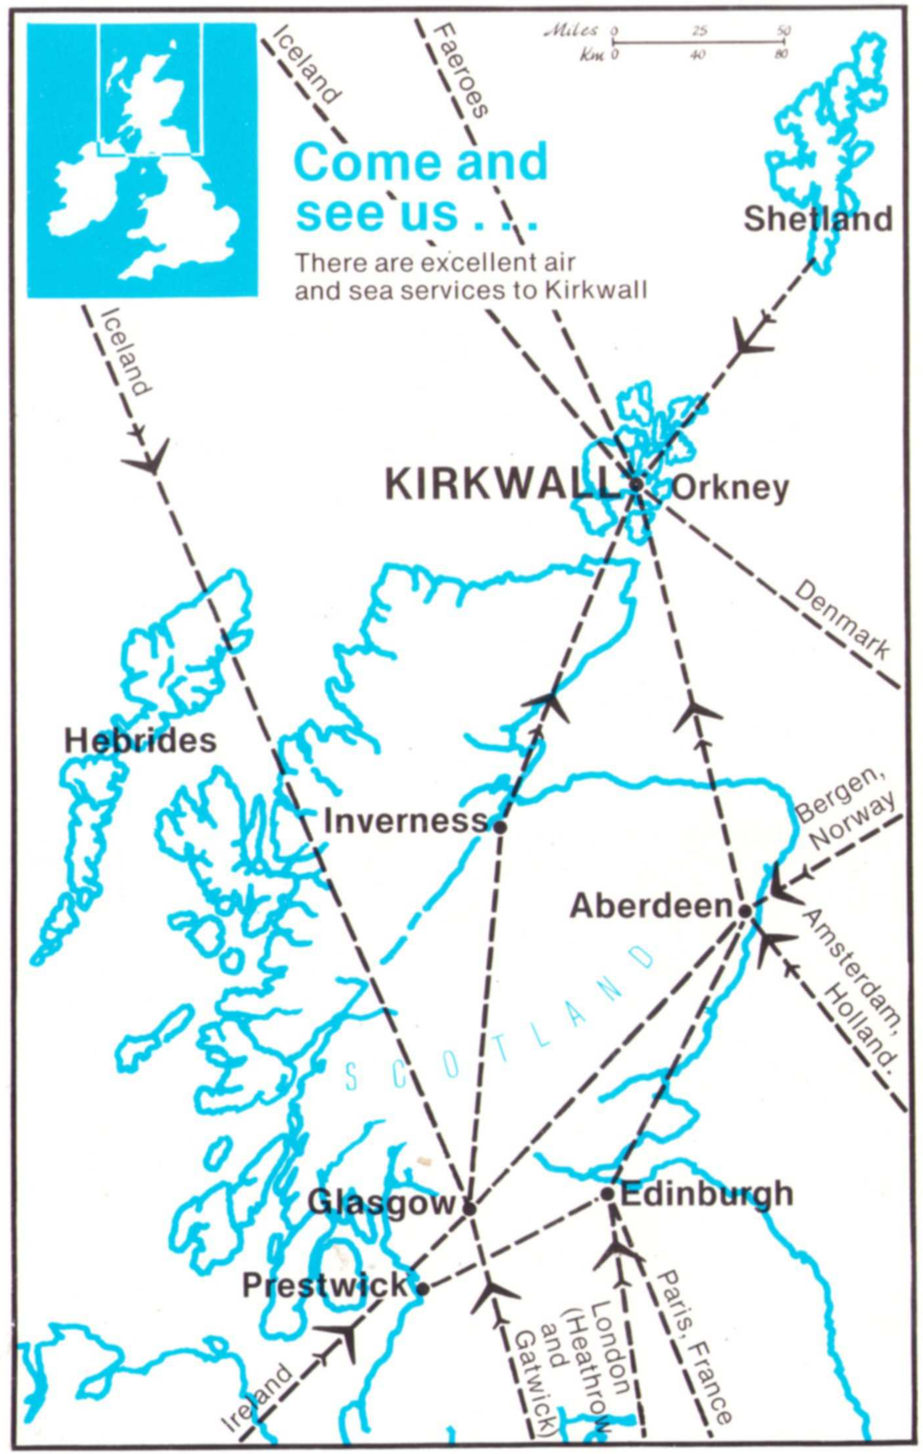

A full range of out-fitting skills is available including marine engineering, electrical and carpentry trades. In addition to our range of standard workboats we are also able to offer special custom built models to meet special requirements.
