'GLASS' TRAWLER LAUNCHED IN TEES

THE LARGEST fibre-glass fishing boat in the country was launched in Teesside today.

Actor Ian Carmichael was among spectators who watched a special crane lift the boat, the 54ft George Weatherill, into the water at Middlesbrough Dock.

Mr. Carmichael is a friend of the boat's owner, Mr. Teddy Jarman, chairman of Whitby Fishermen's and Boatmen's Society.

Built in the Orkneys, the boat was towed down the coast for fitting by the Teesside firm of E. and L. B. Pinkney. Our picture shows it on its way to the launching ceremony.
