PRESS RELEASE

"GANGWARILY", the second 36 ft. G.R.P. Fishing Boat to be moulded by us and completed by James Duncan has now been in service for 2 months. Joining the "Hildona", she has made a welcome addition to the Inshore Fleet operating from Kirkwall.

"GANGWARILY" is based on the standard Halmatic 36 ft. G.R.P. Hull moulded to the requirements of W.F.A. and H.I.D.B. and surveyed during Hull moulding by Lloyds Register of Shipping. (We are the only Company in Scotland able to mould to the requirements of Lloyds in a Lloyds approved Factory.)

The Lister 6 cylinder - 88B.H.P. marine diesel engine drives a three bladed propeller through a 3:1 reduction gearbox giving "GANGWARILY" a maximum speed of 9.5 knots. A watertight self draining floor is fitted to the vessel allowing any water to drain overboard automatically. Forward there is accommodation for two in the foc'sle with cooking and washing facilities in the Wheelhouse.

"GANGWARILY" was built at a total cost of £10,500 which included:-

Lister Diesel Engine
Wills Hydraulic Steering
Sinrad Partner Sounder
Sailor R/T
Evanton Hydraulic Pot Hauler
Decca 050 Radar

and represents extremely good value at present day prices for new craft.

"GANGWARILY" is moulded in Post Office Red and has a grained wooden wheelhouse and sets a new standard of appearance for the 36 ft. range of vessels.

A choice of ten different hull colours are available.
